FOREWORD

Since 1885 Shorthorns have been bred consistently at Robinwood Farms. After World War I, when we realized that a change was taking place in the type of Shorthorns, we laid the foundation for the herd as now constituted, by producing females of the low, thick set, short legged, early maturing type. At the sale of Messrs. Marshall, Russell and Watt we picked a number of heifers conforming to our ideas of correct type, and to these were soon added selections from the importations of Messrs. Dryden and Miller, the late T. A. Russell and J. J. Elliott.

In the following years we never ceased adding young, well bred females to our collection, that came from herds in Canada and the United States, wherein the bulls had given evidence of being good producers of correct type.

Shortly after acquiring the imported foundation females we were able to purchase BROWDALE MEMBER. This great sire produced calves of both sexes that were remarkable for their uniformity and thickness; their showyard winnings were gratifying to us.

When Senator Marshall imported MILHILLS RANSOM for the Ontario Agricultural College, we were amongst the first to send females to be bred to this Perth Champion. One of these matings produced our senior herd sire ROBINWOOD RANSOM. This Ransom mating with the Browndale females has given us a very uniform group of desirable Shorthorns. We have been concentrating this strain in our herd and we have no hesitancy in stating we are justly proud of our achievements.

The health of the herd has been remarkable. We have been under Government accreditation for tuberculosis for fifteen years without a reactor. Our herd has been listed free from contagious abortion for five years. Many of the heifers have been vaccinated with serum 19 Bang's vaccine.

For a quarter of a century we have laboured long and spent liberally in our endeavour to produce better Shorthorns. The results of these efforts we present to you today for your appraisal. It is our hope that these cattle will be as useful to you as they have been to us.

We regret that circumstances over which we have no control make this dispersion necessary.

J. H. ROBINSON, St. Marys, Ont.

DR. T. A. ROBINSON, Toronto, Ont.

The Opportunity of a Decade

About once in a decade, a truly great herd of Shorthorns is sold by auction and dispersed entirely. When that occurs, the most astute breeders attend the sale and secure some of the cattle because it is at dispersals only that the best of proved breeding cattle may be obtained.

Many herds that now are among the leading nurseries of the breed were started or rejuvenated and turned in the direction of success by purchases at dispersals of outstanding herds.

In recent years there has not been as good an opportunity to buy great breeding matrons nor better herd bulls than will be sold in the ROBINSON BROS. SALE of which this is the catalog.

It has been my good fortune to know Robinson Bros. herd for a great many years and to make occasional visits and I have seen it again within the past thirty days. The two great mature bulls that stand at its head are pictured in this catalog. Both of them are in the finest of breeding condition and look as though they will be good for many years of service. The proof of their worth as sires is everywhere apparent in the herd and these bulls are sure to make much more favorable history for the breed before their usefulness is ended.

When it comes to grand breeding cows no herd can surpass this one. Four of these cows were sired by Perth supreme champions. Many of them of course are by the grand senior herd bull Robinwood Ransom by the \$15,000 Perth supreme champion Millhills Ransom (Imp.), but their pedigrees are before you in this catalog and it is not necessary to go into the details of pedigree at this place. It is important, however, to realize that these cows are of ideal type and superb character, that they have been producing and will continue to produce calves that are second to none, and that have grown or will grow to be as good or better than themselves.

If the breeders in America, United States and Canada, could realize the splendid form and quality of the matrons in this herd, their attractive heads and with it all their ability to provide large quantities of milk for their offspring, this sale would be attended by one of the largest gatherings that has gone to any auction anywhere. But everyone cannot realize the breeding ability of these cows and hence, as in all other dispersals, there will be outstanding bargains for those who do come.

This was a good herd from the start and it has grown better year after year by the use of superb bulls and the occasional addition of cows that are of superior breeding, top quality, good color and sound in health.

—Will Johnson of *The Shorthorn World*.

General Information

TIME—This dispersal sale will be held Wednesday, Oct. 11, 1944, starting at 1 P.M. sharp.

LOCATION—The sale will be held under cover, rain or shine, at the Exhibition Grounds, Stratford, Ontario.

MAIL, TELEGRAMS, TELEPHONE CALLS, containing information relative to mail or wire bids may be sent to H. R. White, Secretary, Canadian Shorthorn Association, Guelph, Ont.; Prof. G. E. Day, Secretary, Ontario Shorthorn Club, 32 Arnold St., Guelph, Ont.; Will Johnson, 37 Island Ave., Aurora, Ill.; or any of the Auctioneers. Mail or wire bids will be honestly and faithfully executed.

HEALTH—The herd is Federally Accredited for Tuberculosis, and has been 15 years without a reactor; and 5 years without a reactor to Bangs disease. Many of the heifers have been vaccinated.

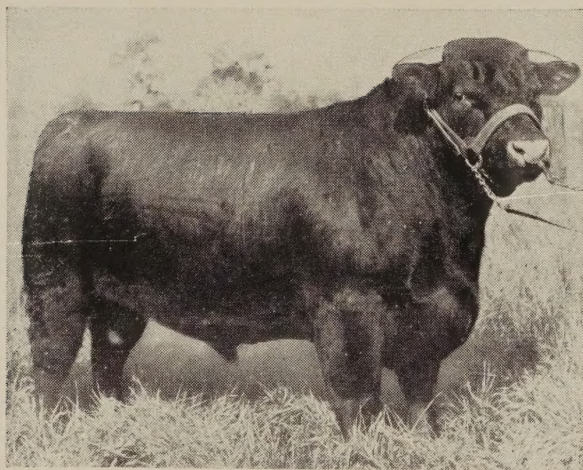

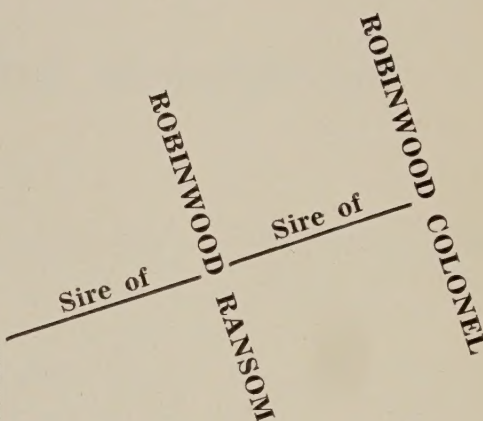

GUARANTEE—Every animal in the herd is healthy, the pedigrees are correct, and those females that do not have calves at foot are well along in calf. The heifers selling open have not been bred either because of their age or because we realize that there are always a few breeders anxious to secure top heifers to breed to their own herd sires. We have always maintained a breeding herd of the utmost reliability. As this is a dispersal sale, no further guarantee will be given.

TERMS—Cash.

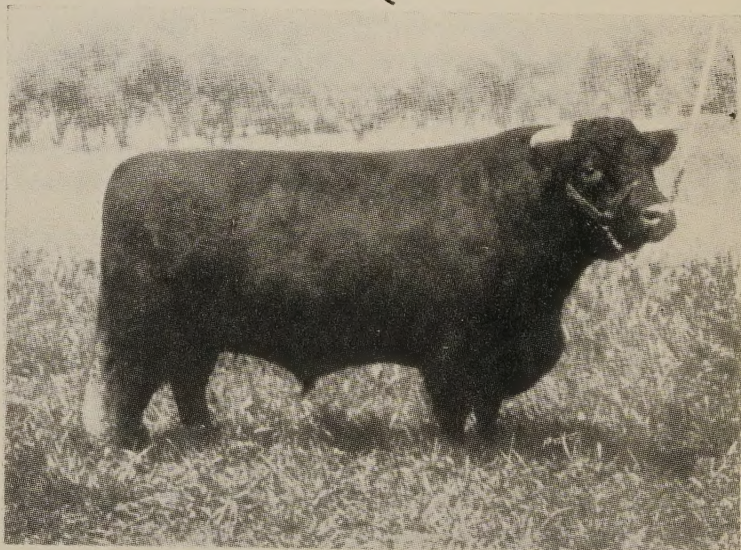

PEDIGREES—A transferred Certificate of Registry in the Canadian Shorthorn Herd Book will be furnished with each lot sold, and a properly executed Application for Registry will be given for every unborn calf.

We will not be responsible for accidents that may occur. As soon as cattle are sold they are at the owner's risk, but every care and attention will be given them, and they will be loaded free of cost.

PROVEN LINEAGE

MILLHILLS RANSOM (imp), the 1936 Perth Supreme Champion, purchased for the Ontario Agricultural College for \$15,000. He was bred at Millhills, Scotland, from which herd have come many of the leading sires in the Argentina and Australia. Millhills Ransom proved himself one of the breed's greatest sires of all times. Wherever the name Ransom appears it is synonymous with quality; breeders from the largest to the smallest recognize the prestige in the name Ransom. Millhills Ransom is the sire of **ROBINWOOD RANSOM** and the grandsire of **ROBINWOOD COLONEL**, the two bulls that have been used in our herd and that are selling in this sale.

COLLYNIE MANDATE 262801, the sire of Millhills Ransom. Collynie Mandate was exported to the Argentina, where he sold for £4000. He is also the sire of Sittyton Choice Baron, Supreme Champion at Palermo 1943. Collynie Mandate is regarded as one of the top breeding bulls in the Argentina.

Lot 1

The get of Robinwood Ransom possesses all the attributes essential to consistent breed improvement; a careful inspection of his get offered in this sale will bear out this claim. He has been justly rated as one of the best sons of the Perth Supreme Champion, Millhills Ransom (imp), which was brought to Canada at a purchase cost of \$15,000.00.

He is still active and should have many years of usefulness ahead.

Although an aged sire, he still retains his straight top, deep even underline, pleasing balance, with style to spare; he has a grand head and horn.

Study his pedigree and it will be noted that his lineage is as good as his conformation. He is truly a sire that can go anywhere.

Whether there ever has been produced a thicker, lower, smoother fleshed bull in Canada is debatable. He carries a head that is full of character and masculinity. He was selected at birth to carry on as one of our herd bulls. With such concentrated power for reproduction as his sire and dam have shown, and his own superb individuality, he has not failed, and we feel will not fail as an outstanding sire. We have been

using him and we think his progeny speak for themselves.

Note his superb pedigree. He is still a young bull with many years ahead of him.

He was a grand champion in 1942 and 1943 at the Special Shorthorn Shows at Exeter and Stratford.

It is with no misgivings that we recommend Robinwood Royal Rothes as a future sire for service in some outstanding herd. It will be noted that he is sired by the Perth Supreme Champion of 1942, Royal Rothes. Royal Rothes is now used at the head of the Connor Prairie herd at Noblesville, Ind. His dam is the red imported heifer we are selling, Gloden Rosebud.

Robinwood Royal Rothes is not selling in high condition, due to the fact that we have used him extensively on our herd. Examine the female offering of this catalogue and you will find that many of them are carrying his service dates.

This young bull is a good deep red, possessing a wonderful head and he carried an abundance of bone. We strongly suggest that you study the pedigree and examine the bull. You will find both are axiomatic.
